## PATEMM PAD

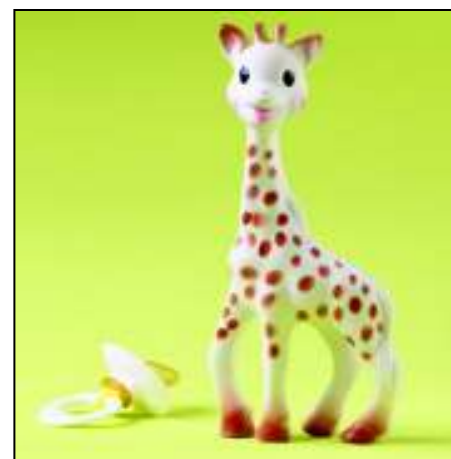

\$30 to \$88

Ingenious: A small round fold-up changing pad that has hidden pockets and can be used anywhere (and, thanks to the handles, with only one hand). Patemm pads are made of oilcloth, denim or organic cotton — we love the oilcloth black and white “jack martin” pattern because it’s easily cleanable (wet wipe and dry) and is oh so chic. Available at [www.patemm.com](http://www.patemm.com).

## JEJE THERAPEUTIC TEETHER

\$12.95

Soothe tender gums with the vibrating teether that works to gently breakdown gum tissue, helping emerging teeth push through. Plus, you can refrigerate it for even more relief and there’s a seven-minute auto shut-off so as to not overstimulate. Available at baby and superstores, and at [www.onestepahead.com](http://www.onestepahead.com).

## GIRAFFE BABY TEETHER

\$19.95

A French classic for your drooling bundle of joie, Sophie the Giraffe is designed to stimulate the senses (she makes a happy sound when squeezed) and soothe teething gums (safe for babies’ mouths). Available at [www.landofnod.com](http://www.landofnod.com).
